Bushland setting, City Living!

This has to be one of the best inner city southside locations on the market today. The Boggo Road Precinct is set to take off and this is your opportunity to either invest or live in this beautiful apartment complex with sweeping views that capture the city lights and Mt Cootha beyond.

Set amongst bush land this near new apartment is adjacent to the most exciting infrastructure this city has seen for decades and signals what will no doubt be significant growth for investments in this area.

The new Boggo Road Cross River Rail station located within walking distance will become a busy interchange and will easily link passengers to the Busway, Park Road station and proposed Brisbane Metro services, as well as the local health and knowledge precinct.

There will also be direct pedestrian access from the new station to Princess Alexandra Hospital.
